SEVESO Planning

"Is your business ready for the changes to the COMAH Regulations coming into force on 1st June 2015?" TCS will work with you & support you to prepare for the new Regulations.

COMAH Regulations 2015

EU Directive SEVESO III

- Understanding the CHIP & CLP Regulations
- Working with the changes in Major Accident Prevention Policies (MAPPs)
- Writing, auditing and reviewing of on and off-site emergency plans
- Supporting changes to Public Information Regulation and the requirement for IT access
- Developing strategy, policy & leadership within your business
- We will work on developing your internal activations processes and plans
- Developing bespoke plans for response teams and capabilities
- Work with Category I & II Responders in developing plans and exercises including developing Fire & Rescue Service's Operational Risk Information requirements
- Supporting your business to ensure compliance with the new regulations whilst maintaining an economy of effort

SEVESO Audit & Review

Competitive & cost effective solutions

ΩΩΩ

To ensure you are in the best position and well prepared, 'plan early and plan well'

ΩΩΩ

TCS will work with your Organisation to:-

- Consider the new & existing legal requirements of the CHIP/CLP/GHS Regulations
- Review & audit existing MAPP's, plans & emergency procedures
- Work with your Emergency Response Teams
- Liaise with local Category I & II Responders
- Liaise & work with the Competent Authority (CA)
- Develop robust audit & review programmes to maintain your emergency plans

SEVESO Training & Exercising

TCS will deliver professional & bespoke training to your organisation and tailored to meet your needs. TCS have qualified & competent trainers, mentors and assessors in a wide range of subjects; namely:

- Live Play, Command Post & Table Top Exercises
- Resilience & Emergency Management Training
- Command, Control & Communications
- Leadership
- Decision Making and Decision Logging
- Crisis Media Training
- First Aid Training
- Hazardous Materials Response
- Interoperability & Integrated Emergency Management at all levels of Command Including JESIP
- Dynamic risk assessments & hazard identification
- Exercise design, delivery & assessment
- Critical incident debriefing & identifying lessons

As founder of TCS, I am committed to ensure the services we deliver to you are supported by the appropriate level of training and underpinning knowledge.

With the combination of support mechanisms we maintain through the professional bodies, the highly experienced and security cleared professionals, TCS is able to offer to you the assurance you need.
